

EL POMAR

INTERNSHIP

A paid, summer
INTERNSHIP
in Colorado Springs

WHO WE ARE

Creating a pipeline of leadership in the nonprofit sector means creating interest among young people in Colorado. In 1994, we created our summer Internship program in an effort to encourage interest in the philanthropy and nonprofit sector among continuing undergraduate college students. El Pomar Interns benefit from nonprofit work experience alongside professional development opportunities as they support many facets of the Foundation. Interns work full-time for the Foundation during the summer and are assigned to a position based on the Foundation's needs and the Intern's interests.

90% PROGRAM WORK

- The Foundation's needs vary every summer, so an Intern's work is always different. Our Interns have supported our leadership development and community engagement programs with outreach, data, and strategic work, and have supported our internal offices through communications, grants, and investments. Interns gain skills including nonprofit support, business writing, grant making support, event planning, communications, and more.

10% PROFESSIONAL DEVELOPMENT

- Networking
- Public speaking training
- Investment and financial literacy classes
- Nonprofit site visits
- One-on-one career coaching
- Personality and leadership assessments

IMPORTANT DATES

February: Applications Close
